

1st Global Assessment on the Current State of Organizational Excellence

You are invited to participate in the 1st Global Assessment on the Current State of Organizational Excellence that is being conducted by the Organizational Excellence Technical Committee (OETC) Quality Management Division, ASQ. Preliminary results for Canada will be presented at the ASQ Canada Conference 2017.

The assessment tool is based on the Organizational Excellence Framework (OEF) that integrates leading excellence models and provides implementation guidelines for the practitioner. Authored by the representative for Canada on the OETC, the publication is intended to provide additional support for excellence models and encourage organizations to use validated best management practices to improve their performance and seek recognition at national award programs (optional). For those interested, the publication may be downloaded at no charge on the home page at <http://organizationalexcellencespecialists.ca/>

Please participate in either the teaser or the full assessment. Be assured that individual results for both assessments will remain confidential and only aggregate data will be reported on the open OETC LinkedIn site. The links for the assessments follow:

1. Teaser assessment - takes 5 minutes to complete, delivers a complementary feedback report to the respondents' inbox
<http://www.qlbs.com/QimonoVBA/assessment/OrgExFrameworkTeaser>
2. Full assessment - takes 15 to 30 minutes to complete depending on organization size
<http://www.qlbs.com/QimonoVBA/Assessment/OrgExFramework>

This research is intended to provide benefits for all stakeholders:

- Contribute to the OETC mandate “to support and promote the use of international excellence models and to help all organizations attain higher levels of performance”
- Create awareness with leaders and managers about the principles and best management practices that are common to high performing organizations and encourage them to use these practices for their benefit
- Examine the extent to which best management practices are deployed by organization size, industry sector and country and highlight gaps that need to be addressed
- Encourage organizations to benchmark their performance with others
- Encourage eligible organizations to apply for a national excellence award or an international best practice or benchmarking award
- Share aggregate results on the open OETC LinkedIn site

Questions about the assessment may be directed to Dawn Ringrose, Principal of Organizational Excellence Specialists and Representative for Canada on the Organizational Excellence Technical Committee and the Global Benchmarking Network.
